Galliker Transport AG – TISAX® Assessment Statement

About TISAX® and Information Security

TISAX® (Trusted Information Security Assessment Exchange) is a registered trademark of the ENX Association and a standard for information security developed by the German Association of the Automotive Industry (VDA).

Confidentiality, availability, and integrity of information are of the utmost importance to Müller AG. We have therefore taken extensive measures to protect sensitive data and fully comply with the Information Security assessment catalogue (VDA ISA) of the German Association of the Automotive Industry (VDA).

TISAX® Assessment Results

In accordance with the ENX Association regulations, TISAX® assessment results are strictly confidential and not intended for the general public. Our detailed assessment results are available exclusively to registered participants through **the official ENX platform**.

Existing participants within the automotive supply chain can request access to our shared results directly via the portal.
